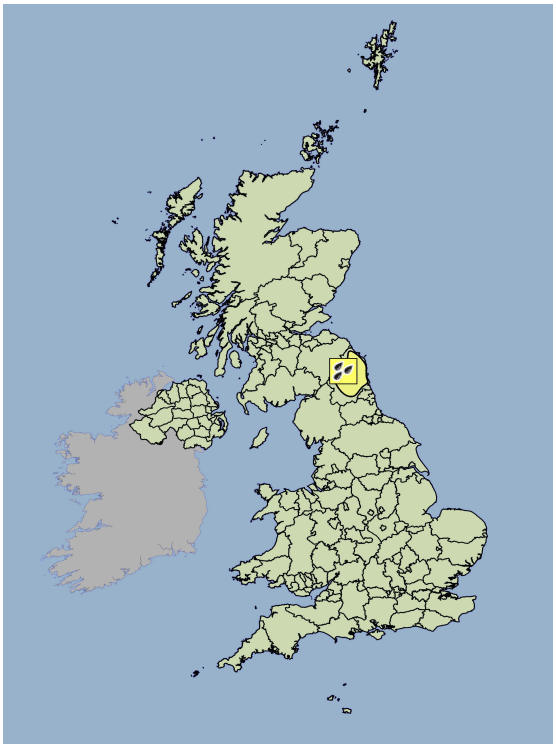
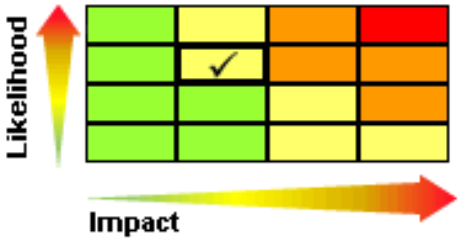
National Severe Weather Warning Service





Chief Forecasters Assessment
Frontal systems will affect the county through the weekend, becoming more active during Sunday and at times on Monday. Rainfall totals over the 30-hour period from the middle of Sunday afternoon seem likely to be around 40 to 60 mm quite widely and perhaps in excess of 80 mm across the Cheviots.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **15:00 on Sun, 03rd Jan 2016** until **21:00 on Mon, 04th Jan 2016**

Rain will affect large areas of Northumberland over the weekend and into Monday, turning heavier during the second half of Sunday, as well as more persistent. Please be aware of the risk of localised flooding.

This is an update to bring forward the start of the period during which flooding impacts become more likely.
